

Pigeon Guillemot Survey - Beach Data Sheet – BNV Edition

Use for colonies where burrow locations cannot be determined with certainty.

Colony Name: _____ Survey Date: _____ Survey Week: _____

Lead Name: _____ Start Time: _____

Observers: _____

PIGU Counts:

_____ Start Middle End

<p>Tide in feet @ start _____ + / - (circle + or - tide value)</p> <p>Direction: Incoming/Outgoing (circle)</p>
<p>Volunteer Time: _____ Hours*</p> <p><small>*Total for all volunteers including round trip travel, settling in, survey, and data entry.</small></p>

Admin/QC Only

Disturbances (only document if birds react)

Enter beginning and end time for each disturbance. Also note if the disturbance ended before the survey ended with Y/N. Add a brief description of disturbance, if needed/desired. An example disturbance is shown below.

Eagle	Beach Walker	Walker w/ Dog	Motorized Boat	Non-Motor Boat	Unknown	Other Cause
8:48, 9:00, N						
Eagle flew low along beach. PGs flew out beyond the kelp and stayed there beyond the survey end.						

General Survey Notes: _____

Check the box if there were no prey deliveries for this survey date:

Colony Name: _____ Survey Date: _____ Survey Week: _____

Prey Delivery Data

Do not provide a Burrow ID. BNV stands for "Burrow Not Visible". In Survey123 enter Burrow ID as "BNV".

<i>Burrow ID</i>	<i>Prey Type</i>	<i>Delivery Times</i>					
BNV	Sculpin						
	Gunnel (Include Prickleback)						
	Other/Unknown						

Notes: _____
